

**Sharing our research is a major focus of our work. All First Nations Innovation publications are available on our website. Some recent publications:**

<http://fn-innovation-pn.com>

**First Nations  
INNOVATION**

**Conversations on telemental health: listening to remote and rural First Nations communities**

**Digital Divides and the 'First Mile': Framing First Nations Broadband Development in Canada**

**Videoconferencing for First Nations Community-Controlled Education, Health and Development**

**Keewaytinook Mobile in Fort Severn First Nation**

**How women in remote and rural First Nation communities are using information and communication technologies**

**Mishkeegogamang First Nation Community Members Engage with Information and Communication Technologies**

**Post-Secondary Distance Education: Experiences of Elsipogtog First Nation Community Members**

**Community Resilience and Social Media: Remote and Rural First Nations Communities, Social Isolation and Cultural Preservation**

**We are working with rural and remote First Nations to understand and highlight their achievements and innovation with information and communication technologies (ICT) and community services.**

The project partners are located in four Canadian provinces, across three time zones and more than a thousand kilometres apart.

We use ICT extensively - especially videoconferencing - to make First Nations Innovation happen.

August 2013

The First Nations Innovation project is researching broadband technologies and communications in remote and rural First Nation communities in the Atlantic region, Quebec and Ontario.

We work in collaboration with First Nation partners and communities.

All our community-based publications are co-authored with community members to reflect the community's priorities and perspectives.

The bilingual First Nations Innovation website is a resource for everyone:

<http://fn-innovation-pn.com>

If you would like to be involved in the project,  
we invite you to contact one of the project partners – their websites are listed below

For more information or to join one of our monthly meetings:
